

## ProAV universal video wall mount

**Wall plates:** TH-VWP-100, TH-VWP-160, TH-VWP-050, TH-VWP-080

**Mounting brackets:** TH-VWV (landscape), TH-VWVP (portrait)

The Telehook ProAV portrait universal video wall mounting system is an industry leading scalable and upgradeable product range that supports a wide variety of portrait or landscape video wall configurations. Its universal display mounting pattern allows for previously unachievable compatibility with modern video panels. The ProAV range is designed with the needs of public environments and installers in mind; integrating high security features throughout to ensure display security whilst also maintaining ease of installation via the use of clever time saving and safe installation features.

**Mounting hole pattern:**

**Landscape:** From 200mm to 400mm high

**Portrait:** From 200mm to 800mm high  
Unlimited width

**Maximum weight carrying capacity:**

165kg (363lbs) per display

### Save Installation Time

- Interconnecting wall plates for easy alignment.
- Simple hook-on video panel installation system.
- Multiple points for pre and post installation adjustments.
- Security fixing points for each video panel.
- 74.5mm (2.37") of space available at the rear to accommodate media players.

### Save Cost

- Designed to minimise cost and maximise universal compatibility with different video panel sizes and brands.
- No limit as to how many video panels can be mounted. This scalable system can go infinitely both vertically and horizontally.
- Simple and flexible, it relies on a combination of four different length wall plates and a set of brackets per video panel (Portrait or Landscape).

### Reduce Service Downtime

- Modular design allows each individual panel to be quickly removed for maintenance or replacement.
- Interlocking wall plates and post installation adjustment allows quick and easy installation to help limit the down time involved with the initial installation.
- Built in support stand provides access to rear of video panels and media players for easy cabling.

Ultra slim design sits just 44.5mm (1.75") from the wall

Convenient built in support stand for video panel maintenance, replacement and cabling

Security fixing points for each video panel

+/- 5° of post installation screen levelling adjustment

Interconnecting wall plates provide alignment assistance to installers
