

Dual display Mobile TV Cart | TH-TVCD

The TH-TVCD dual display mobile TV cart is the ideal solution for video conferencing. Supporting two large displays (up to 60" each) in a side by side configuration helps to improve the quality of your video conference calls by providing extended screen real estate for multiple users, screen sharing and more. It can be easily upgraded to support a video camera shelf above the displays via the use of the TH-TVS (sold separately) to create a complete video conferencing solution. Mobile TV carts allow displays to be maneuvered between rooms quickly and easily, helping to cut down on costs by reducing the need to buy multiple displays.

Mounting hole pattern:
From 200mm to 900mm wide
From 200mm to 600mm high

Maximum weight carrying capacity:
50kg (110lbs) per Display
